

Adarsh Krishna

Full Stack Developer

+91 9746089991 | adarshk66666@gmail.com | www.linkedin.com/in/adarsh-krishna-670169253

I am a motivated MERN stack developer with expertise in MongoDB, Express.js, React.js, and Node.js, along with strong skills in HTML, CSS, and JavaScript. As a BCA graduate and a MERN stack intern at Camerin Folks Pvt Ltd, I am gaining hands-on experience in building responsive and scalable web applications. Currently undergoing a 6-month MERN stack training program, I am committed to delivering efficient, user-focused solutions while continuously improving my technical skills.

SKILLS

HTML5 CSS3 JavaScript React.js MongoDB Express.js Node.js MVC architecture Bootstrap Redux MySQL
Postman VERCEL JWT Multer Razorpay Twilio

STRENGTHS

EXPERIENCE

Mern Stack Developer Intern

CAMERINFOLKS Pvt Ltd

Aug 2024 – Feb 2025 | KAKKANAD, Kochi

- Engaged in a 6-month specialized training program in MERN stack technologies, including MongoDB, Express.js, React, and Node.js.
- Actively developing skills in HTML and CSS to enhance front-end development expertise.
- Focused on building a strong foundation in full-stack development to secure promising placement opportunities in the web development field.

PROJECTS

Blood Donation System

A web-based platform that connects blood donors with recipients, enabling users to request and donate blood efficiently. Features include donor registration, location-based search, and real-time availability updates.

Weather Forecast Application

A dynamic application that provides real-time weather updates using API integrations. Users can search locations, view temperature, humidity, and forecasts, and receive alerts for extreme weather conditions.

EXPENSIO - Expense Tracker Application

A financial management tool that helps users track income and expenses, categorize transactions, and visualize spending trends through charts, ensuring better budgeting and financial planning.

SPICES - Wholesale and Retail Web Application

An e-commerce platform designed for wholesalers and retailers to manage inventory, process orders, and facilitate online transactions, enhancing business operations with secure payment gateways and real-time stock updates.
